■ MATRIX MANUFACTURING

Based at Vadodara in India, Matrix manufacturing unit is operated by a team of professionally qualified and dedicated engineers. Spread over an area of 40,000 sq. ft, the structure houses departments like Assembly, Testing, Quality Control, Purchase, Stores, Despatch and Accounts. Matrix has a production capacity of about 1,000,000 ports per annum. The factory also houses a full-fledged technical support center spread over an area of 10,000 sq. ft, manned by trained and efficient engineers. The center provides immediate technical assistance to Matrix channel partners and customers in installation, operation and maintenance of the products.

■ MATRIX MARKETING

The marketing team at Matrix strongly believes in value-based marketing and strong networking. A special customer care cell provides prompt and professional response to the customers. Right from product conceptualization, designing to the commercial marketing, Matrix adopts a completely global approach. Backed by an extensive network of more than 500 channel partners, Matrix ensures that the products serve the communication needs, faster and longer.

■ MATRIX R&D

All Matrix products are indigenously designed. With around 30% of its human resources dedicated to the development of new products, Matrix R&D is the foundation of its growth and sustenance. Matrix R&D is located at its corporate office and is spread over an area of 15,000 sq. ft. The R&D team designs products conforming to relevant international standards. Matrix makes substantial investment in R&D tools and equipment to stay abreast of the latest technological changes. The Department of Scientific & Industrial Research (DSIR) has also recognized the contribution made by Matrix R&D in the technological & industrial development.

ENTERPRISE IP-PBX

Matrix offers a wide range of enterprise switches to meet the diverse and specific needs of medium and large enterprises. These products have evolved out of an in-depth understanding of the way modern businesses operate. Providing a high performance, reliable and expandable communication infrastructure, these products enhance organizational productivity by leaps and bounds.

ETERNITY The IP-PBX with Seamless Mobility and Universal Connectivity

ETERNITY GE and ME is a family of IP-PBX solutions. It is specially designed to meet enterprise applications. It can offer solutions for organizations having requirement up to 1000 users.

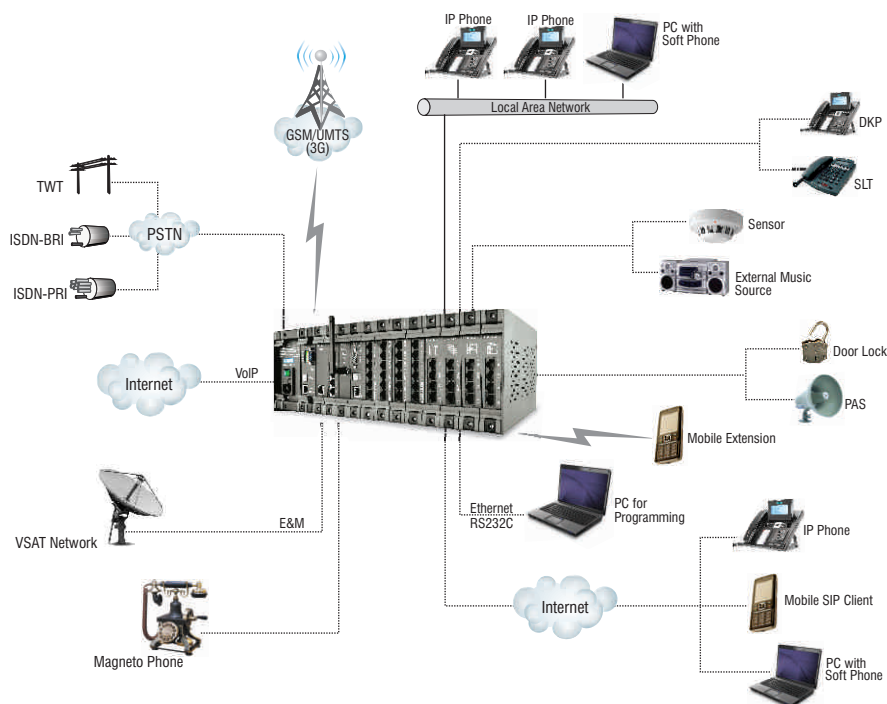

ETERNITY GE6S

ETERNITY GE12S

ETERNITY ME10S

ETERNITY ME16S

ETERNITY GE6S and GE12S: The All-Integrated Communication Platform for Growing Enterprises

ETERNITY GE is offered in two configurations - 6 and 12 Universal Slots. All the cards including CPU and Power Supply are interchangeable.

ETERNITY ME10S and ME16S : The Complete Communication System for Modern Enterprises

ETERNITY ME is the eldest and the biggest in the family and is targeted to large enterprises. It comes in two configurations 10 Universal Slots and 16 Universal Slots.

Connectivity

- Single Line Telephone (SLT)
- Digital Key Phone (DKP)
- Operator Console (DSS)
- IP Phone (SIP based)
- Analog CO Line (TWT)
- ISDN BRI (TE/NT)
- ISDN T1/E1/PRI (TE/NT)
- GSM/UMTS(3G)
- VoIP Trunk
- E&M Line
- Magneto Phone
- Voice Mail System

Product	Universal Slots
ETERNITY GE6S	6
ETERNITY GE12S	12
ETERNITY ME10S	10
ETERNITY ME16S	16

Key Features

- Automatic DISA
- Call Budget on Trunk
- Call back on Mobile Port
- Call Detail Record of 12,000 calls
- Class of Service
- CLI based Routing
- Dynamic DNS
- Hot-Swap (ETERNITY ME)
- Hot Standby (ETENRITY ME10SDC)
- Mobile Trunks and Extensions
- NAT and STUN Support
- Public Address System Port
- QSIG
- Registrar Server
- Return Call to Original Caller (RCOC)
- Security Dialer
- Sensor Port
- Universal Routing with Least Cost
- Universal Slots
- Video Conferencing
- Voice Mail System
- Web based Programming

SMB IP-PBX

ETERNITY PE The SMB IP-PBX With Seamless Mobility and Universal Connectivity

Matrix offers three variants to cater this segment. ETERNITY PE built on digital, ISDN technology to meet the exact configuration requirements. They are designed to grow along with the growing communication requirements. With a host of built-in features and facilities that normally warrant additional investment in other brands, these systems offer more returns on your investment.

ETERNITY PE 3SS, 3SP and 6SP

ETERNITY PE3SS

ETERNITY NE The Next Generation IP-PBX for Small Businesses

Matrix presents ETERNITY NE - the youngest and smallest member of ETERNITY IP-PBX family specifically designed for small businesses, built to empower them with features and functionalities that dramatically improve their efficiency and productivity.

ETERNITY NE is offered on a single platform with a form-factor in harmony to needs of small businesses. It supports all sought network connectivity - PSTN, GSM/UMTS(3G) and VoIP. At the same time it offers seamless communication across all forms of extensions - analog, digital, mobiles or IP extensions. Further, Small Businesses can avail features and functionalities such as IP trunks and IP extensions, mobile trunks and extensions, presence and IM, voice mail to email which were availed by larger enterprises only. With mobility extensions, ETERNITY NE can replicate the functionalities of desk phone on user mobile phones, allowing them to make or receive calls and access systems features such as transfer, forward, voice mail, directory and conference from within and outside office.

The communication platform built with high-end features does not need high-level of expertise to handle and operate. Easy to use, configure and satisfying to the needs of Small Businesses, the system offers reliable operation and exceeds expectations.

ETERNITY NE CONNECTIVITY

ETERNITY NE

ETERNITY NE is offered in following four variants:
ETERNITY NE2: 2 CO Ports, 2 Digital Extensions, 4 SLTs and up to 16 IP Extensions
ETERNITY NE3: 3 CO Ports, 2 Digital Extensions, 6 SLTs and up to 16 IP Extensions
ETERNITY NE4: 4 CO Ports, 2 Digital Extensions, 10 SLTs and up to 16 IP Extensions
ETERNITY NE6: 6 CO Ports, 2 Digital Extensions, 14 SLTs and up to 16 IP Extensions

Connectivity

- Single Line Telephone (SLT)
- Digital Key Phone (DKP)
- Operator Console (DSS)
- IP Key Phone (SIP based)
- Door Phone (4-Wire)

- Analog CO Line (TWT)
- GSM/UMTS(3G)
- VoIP Trunk
- Voice Mail System

Key Features

- Auto-Attendant
- Automatic DISA
- Call Budget on Trunk
- Call back on Mobile Port
- Call Detail Record of 12,000 calls
- Class of Service
- CLI based Routing
- Compact Footprint

- Dynamic DNS
- Least Cost Routing
- Mobile Trunks and Extensions
- NAT and STUN Support
- Presence and IM
- Registrar Server
- Voice Mail System
- Web based Programming

SAPEX All-in-one Embedded IP-PBX Server

Matrix SAPEX is a pure IP-PBX with embedded Registrar, Proxy, Voice Mail, IM and Presence Server with built-in Auto-Attendant. It plays the role of a Central Proxy SIP Server to which multiple SIP Compliant PDAs, Gateways and SIP Phones can be registered. SAPEX can be registered to multiple Service Providers as a client. It supports least cost routing feature which routes the dialed numbers through programmed selective SIP trunk resulting into cost reduction and an extended business reach.

SAPEX is available in two variants.
SAPEX SDM **With 20 Concurrent Calls**
SAPEX DDM **With 30 Concurrent Calls**

SAPEX

Key Features

- 10 SIP Accounts
- 100rel/PRACK
- 3-Party Conference
- Built-in Auto Attendant
- Built-in Voice Mail
- CLI based Routing
- Configuration/Firmware Management
- Dynamic DNS (DDNS)
- Embedded Registrar and Proxy Server

- Fax Tone Detection
- Peer-to-Peer Calling
- RADIUS Client
- Supplementary Services (Call Forward, Call Hold, Call Pickup, Call Park, Call Transfer)
- SMTP Client
- Voice Transcoding

HOSPITALITY IP-PBX

The Communication Lifeline of Hospitality Industry

Matrix offers a wide range of products for the hospitality industry. Designed after an intensive research of a number of leading hotels, these products offer features that have been developed for the hospitality industry with the singular objective of enhancing efficiency and maximizing customer satisfaction.
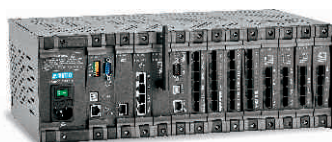

ETERNITY IP-PBX, the hospitality management PBX that not just plays a role of a communication system, but also actively contributes in the routine functioning of the Hotel, thereby increase the productivity of its staff. With features that facilitate to serve guests more efficiently without any human error, ETERNITY IP-PBX truly is a boon to hoteliers.

Matrix ETERNITY IP-PBX offers host of advance hospitality features which can perform most of the hotel tasks such as Check-In, Check-Out, DND, Wake-Up Alarms, Reminders, Print Check-Out reports etc. making it a complete Hotel PBX. These features are easily managed by a module called Front Desk Management. In addition, it also supports third party PMS and CAS integration for hotelier who requires to avail extra facilities offered by PMS and CAS.
